I am a Software engineer and computer science student at Kibo School. Passionate about using my Python and web development skills to build products that provide solutions and make a positive impact.

EXPERIENCE

Recipe Hub   **Mar 2023**
Kibo School , New York, NY

- Collaborated with a team of three to design and develop a Flask-based web application with CRUD functionality using Python, Postgresql, and SQLAlchemy.
- Developed and integrated functionality for editing, deletion, and searching of recipes within a relational database, resulting in a more streamlined and efficient process for managing recipe data.

JavaScript Tutor   **Nov 2022 - Jan 2023**
Youths Impact Centre, Lagos, Nigeria

- Created engaging and comprehensive JavaScript course material, including clear and practical video examples, resulting in a 50% increase in student satisfaction scores.
- Developed interactive JavaScript lessons and assignments that improved students' comprehension and proficiency in web development.

Full Stack Developer Intern   **May 2022 - Aug 2022**
Zuri Team, Inc. , Lagos, Nigeria

- Developed and implemented a responsive web interface that increased user engagement by 35%, utilizing HTML, CSS, and JavaScript technologies.
- Collaborated with team members to optimize codebase, implementing strategies such as image optimization, minimizing HTTP requests, utilizing a content delivery network, and code minification. These efforts reduced website loading time by 50%, resulting in a more seamless user experience.

EDUCATION

Kibo School of Technology   **Oct 2022 - Present**
Bachelor of Science in Computer Science, Expected July 2025   New York, NY
